

Manufacturers of Galley Equipment

ALUMINOR
since 1929

ALUMINOR

ALUMINOX

ALUMINOX

Our company

A history that begins from 1929...

In 1929, Emmanuel Chiladakis founded a small company for producing equipment for commercial kitchens.

Nowadays, after a long presence of more than 70 years in the market, ALUMINOX has acquired a long-term experience in high quality, technologically advanced products and their support.

The factory, covering an area of 6.800 m² of the total 13.000 m² company owned area, is in operation since 1989 in Koropi Industrial Zone and it is equipped with automatic production machines of the latest technology

Cooperating with Aluminox results to:

- Flexible production that can be customized according to your specific project.
- Direct contact with the person in charge of your project/s. Your requests is our top priority and we make sure that we meet your demands
- Aluminox products are exported all over the world. In 4 continents, consequently:

1. [EUROPE](#) (Germany, Italy, France, Spain, Portugal, Norway, Finland, Poland, Croatia)
2. [U.S.A](#)
3. [ASIA](#) (China, South Korea, Japan, Singapore)
4. [AFRICA](#) (South Africa, Egypt)

ALUMINOX

Export

Aluminox manpower is 85 people

We believe that only through continuous education of our staff we can achieve successful progress:

In Aluminox you can find people with specialization in:

- Lay out drawings regarding mass foodservice facilities.
- Customer service
- Mechanical engineers for customized products.

In 2008 Aluminox USA followed.

In 2010 Aluminox is expanding with a new Logistics Center in China.

Our know-how is our most valuable asset and we would like to share it with you

Aluminox offers the complete project concept.

- That means that we can participate with the owner or the yard at any stage a project.
- We can be with you at the very early stages when you prepare your budget or when you make the layout arrangement drawings.
- When the designs are prepared from your side we are flexible enough to adjust our proposals and products according to your design and of course we can install and start up the equipment we offer you.
- Finally, our customer service stays with you all the way ensuring that you have the best possible after sales service.
- We have specialized people in key areas of the company and in this way we can provide quick and efficient service.
- In a project we produce 60%-80% of the equipment on board. In this way we control both the quality and the aesthetics and the finished result shows a unified design.
- We can provide you with turn-key delivery together with our network of cooperators and adopt in the way you prefer the job to be done (for example through a module based system). We can comply with all regulations, Norsok, USPH as all of our products fulfill the highest quality requirements.

Our Products

Aluminox can offer a variety of products.

All of our appliances have the CE approval so that they comply with the European Community quality standards, and our production procedure is ISO 9001 certified.

After a long-term experience, we have developed our production to include constructions of very strict regulations such as the United States£ Public Health Specifications (U.S.P.H.).

Our range of products includes the following categories:

- **Preparation Equipment**
- **Cooking Equipment**
- **Food Serving Equipment**
- **Dish Washing Equipment**
- **Bar & Pantry Equipment**
- **Refrigeration & Laundry Equipment**
- **Self Service & Stainless Steel Furniture**

- **High quality-long durability**
- **Distinctive design**
- **Superior Performance**
